As a team we want to finish all aspects of the project, which includes commenting the code, finishing any remaining aspects of the project, and writing all documentation.

TASK LISTING

1. As a Sponsor, I want to know when a participant opens an app and closes it.
 - a. Calculate start and end times using app usage API
 - b. Buffer the collected data
2. As a Product Sponsor, I want the Admin Panel presented in an aesthetically pleasing way so that everything is structured and clear when I visit the page.
 - a. Use HTML/CSS to style and cleanup the look of the Admin Panel
 - b. Finish implementing any remaining features
3. As a Developer, I want to debug and test the Android app to make sure there are no issues and everything is working as intended.
 - a. Debug new data collection
 - b. Fix login on boot
 - c. Clean up app UI
 - d. Adjust format of the data sent
5. As a Sponsor, I want labels associated with each URL collected by the Chrome Extension to provide more information for analysis.

a. Label each URL according to business nature
